

Best Practice

Service: Consulting

Solution Suite: Training Programs

Best Practice: Scenario Based Learning Experience (SBLE)

AMS deploys solutions based on customized industry and experiential best practice. Our team of executive level consultants will work with your organization to craft the best implementation of any service, solution suite and correlating best practice. This holistic approach to creating business solutions will render high value ROI, continuity and embedded value.

The AMS Scenario Based Learning Experience (SBLE) draws upon the framework of the PIE Learning System as well as leveraging our Learning Customization model. For more information or to schedule a demo of our interactive learning design please contact an AMS Client Solution Architect.
