

Consultant Biography

Jeffery Stempien, PMP, MBA
Principal Consultant

Jeff Stempien is a Principal Consultant at Advanced Management Services, Inc. (AMS), a full service management consultancy servicing an international client base.

Jeff is a business professional and consultant with 30 years of experience in transportation, logistics, and supply chain management. He has held senior and executive positions with leading transportation service providers and was most recently the Director of European Logistics for a leading chemical company based in Lausanne, Switzerland. His practical experience includes direct management of large international integrated transportation services, coordination of global supply chain networks, plant and facilities management, and new business development. One of his last assignments was to lead a project team in the complete analysis of the transportation infrastructure of the Republic of Russia for the US Department of State.

As a consultant he has provided services to domestic trucking companies, railroads, gas and electric utilities, research groups, and most recently to one of the nation's largest wireless telecommunication companies. Over the last 10 years he has conducted over 200 management training courses for diverse organizations which include: Lockheed Martin Aerospace, Lucent Technology, Wal-Mart, BAE Systems, Baltimore Gas and Electric, Constellation Energy, Appalachian Power, and George Washington University. He has also trained over 2000 Federal Government and Military personnel for agencies such as, Department of Energy, Nuclear Regulatory Commission and the Environmental Protection Agency. His training includes essential and advanced courses in Project Management, Risk, Quality, Communications, Procurement, Performance Measurement, Requirements Management, Strategic Planning, Change Management, and Organizational Improvement.
