

# Course Description

## Real World Ethics AMS290

### Overview

This session focuses on the critical decisions, strategic thinking and personnel issues that are driven by “Real World Ethics.” In today’s ever changing business environment it is critical that we embrace an elevated level of accountability to making the “right” business decisions.

Corporate governance, legalities, diversity, globalization and the economic downturn all play into our daily decision making criteria. How we interact and in turn respond to these areas of business activity is guided by the foundation of our ethics model. Learning how to identify and stay committed to this model is imperative to good leadership and ultimately the sustainability of our organizations and set of personal standards. Ethics codes, policy and enforcement do not result in ethical outcomes without the personal attachment of our behaviors and morals.

The program explores the personal aspects of ethics driven accountability by back-dropping real world examples of risk mitigation, problem resolution, strategic planning, critical decision making and human resource intervention. Learn what it takes to design and model an ethically driven workforce through leadership.

Whether you lead a team, organization or just want to improve your personal understanding of ethical decision making you will benefit from this session.

### After completion of this program, participants will be able to:

- Understand why ethics always has been and always will be about you
- Build on personal examples to reinforce your critical decision model
- Understand when ethics are in play and correlate them to your daily activities

### Format

The format of the class is highly interactive and how-to oriented. Discussion of concepts and principles is followed by team exercises using a real project chosen by the attendees.

### Delivery Options

### Duration

1 Day/Online 6 hours

### Who Should Attend

Individuals looking to understand when ethics are in play and correlate them to your daily activities.
