

# Course Description

## COBIT Foundation AMS296

### Overview

The training course in COBIT is a 2.5-day instructor-led course that provides a comprehensive review of COBIT. This course also provides guidance on how COBIT can help business management, IT management and IS auditors meet the multiple requirements of IT Governance in a structured approach. Upon completion of this program, attendees will be able to understand COBIT, tools and guidelines relating to COBIT and COBIT implementation.

### Learning Objectives

- A quick review of COBIT standards
- A quick review of IT Service Management Process
- Develop understanding of COBIT Tools and Guidelines
- Understand the steps for implementation of COBIT Standards

### Format

The format of the course is highly interactive and how-to oriented. Discussion of concepts and principles are followed by exercises. Actual case studies and project scenarios will be utilized to apply the course's tools, concepts and practices.

### Delivery Options

### Duration

2 days

### Who Should Attend

Professionals who wish to gain a better understanding of COBIT and what it can do for their organizations.
